Changelogs:

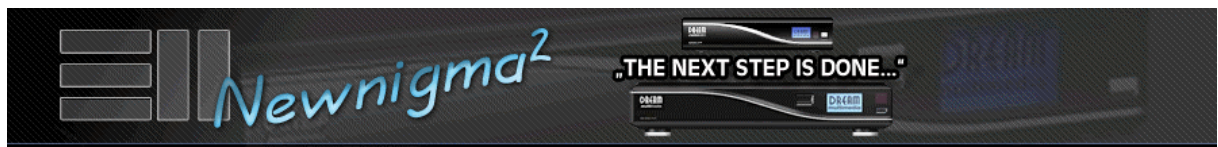

7025/800/8000 openembedded update

- Full udev compliant
- gstreamer rewritten

7025/800/8000 NewNigma² plugin fixes

- Onlineinstaller is now much faster
- Devicemanager for all external storage devices
- Offlineinstaller now supports all external storage devices
- Configsaver is more user friendly and supports all generic necessary files

NewNigma² skins fixes

- First newnigma2-HD skin
- Redesigned newnigma2-services, now HD skin compatible

NEW on 7025/800/8000 feeds:

- Camd restarter
- Startservice
- Remote timer

Attention:

Because of many modifications of 'gstreamer' this time an online update isn't possible, sorry. All models need to be reflashed.

NewNigma² team wishes lots of fun with our NewNigma² Version2.5
